

NATIONAL INSTITUTE FOR LEARNING DEVELOPMENT

Course Syllabus

I. WORKSHOP DESCRIPTION

This is a lecture and laboratory course designed to train teachers to provide written language intervention in a group setting. Rx for Discovery Writing is specifically intended for students in grades 4-12 whose basic written expression skills are below expected standards as determined by a local educational agency.

Rx for Discovery Writing will build and strengthen grammar and writing mechanics, semantics, syntax, and composition writing skills with an emphasis on the writing process.

This intervention can happen within three 40-minute, weekly small group sessions or two 60-minute, weekly small group sessions. Students who need to master basic grammar and writing skills will benefit most from this program. Though handwriting and spelling skills are utilized and applied, these skills are not explicitly taught in this intervention.

Students will be challenged to apply their growing understanding of grammar to the creation of sentences, paragraphs, and compositions. Students will be implementing grammar, spelling and usage rules when editing their own written work as well as the written work of others.

Language and higher-level thinking skills will be developed and supported in this interactive, small-group intervention that covers research-based writing content while mediation, Socratic questioning, and the strengthening of cognitive functions will serve as the core methodology. In this dynamic intervention, students' written expression skills will be honed while their thinking and language skills will be strengthened, all within an atmosphere where writing skills are explicitly taught so anxiety and reluctance to write are reduced and thinking is maximized.

- A. **Research:** Neuropsychology of Written Language Disorder; the power of mediation; cognitive functioning abilities related to written expression
- B. **Philosophy:** Hands-on, brain-based, research-based grammar and writing activities with emphasis on Socratic questioning, theories of group dynamics, and cognitive functions
- C. **Intervention** Balanced, mediated application of written language activities and techniques addressing 1) grammar skills, 2) sentence construction and combination skills, 3) and composition and editing strategies
- D. **Assessment** Identify specific difficulties with written expression; gather pre/post data using Kaufman Test of Educational Achievement and informal observations

II. WORKSHOP OBJECTIVES

- A. **General:** Successful completion of this workshop will enable the participant to better understand student needs in written expression based on the subtypes of written language disorders and understand how to strengthen grammar, writing mechanics, semantics, syntax and composition skills while also learning how to utilize the group model for Rx for Discovery Writing to inspire reluctant and struggling writers to enjoy the writing process and the ability to communicate their own ideas in written form.

B. **Specific:** Upon completion of this workshop, participants will be able to:

1. Acquire an understanding of the characteristics of students who struggle with written language disorders
2. Articulate how the components of written language are related: handwriting, spelling, and composition of thought processes
3. Design a writing intervention plan and implement techniques that meet the specific needs of a group of struggling writers for grades 4-12
4. Communicate and implement the theories of mediated learning in a group setting

III. REQUIRED RESOURCES

- A. Rx for Discovery Writing *training manual* (provided by NILD)
- B. *Teaching Students with Dyslexia, Dysgraphia, OWL LD, and Dyscalculia-2nd Edition* by Virginia Beringer & Beverly Wolf.
- C. *Easy Grammar Plus (Teacher Edition)* by Wanda C. Phillips
- D. *NILD Grammar Notebook* purchased from NILD's website (www.nild.org)

OPTIONAL MATERIALS:

1. *Getting a Grip* by Kathleen R. Hopkins
2. *Daily Grams* by Wanda C. Phillips
3. *Craft Lessons Second Edition: Teaching Writing K-8* by Ralph Fletcher and JoAnn Portalupi
4. *Nonfiction Craft Lessons: Teaching Information Writing K-8* by Ralph Fletcher and JoAnn Portalupi

IV. WORKSHOP REQUIREMENTS

A. Pre-Workshop Preparation

1. Watch 3 asynchronous PowerPoint lectures.
2. Read five articles
3. **Read** - Chapters 1, 2, & 5 from *Teaching Students with Dyslexia, Dysgraphia, OWL LD, and Dyscalculia* by Virginia Berninger & Beverly J. Wolf.
4. Familiarize yourself with *Easy Grammar Plus Revised 2007 (Teacher Edition)*

B. Workshop Activities

1. Acquire an understanding of the characteristics of students who struggle with written language disorders
2. Articulate how the components of written language are related: handwriting, spelling, and composition of thought processes
3. Learn research-based intervention techniques to teach grammar, syntax, semantics, and the writing process to improve written expression skills in struggling writers

4. Demonstrate written expression intervention techniques with peers in a small group setting and implement strategies for motivating reluctant writers

c. Workshop Workload

1. Asynchronous learning – time required is approximately 7 hours
2. Synchronous learning – time required is 8 hours

V. COURSE EVALUATION

Participants will practice writing intervention techniques with a small group and receive feedback on their demonstrations. Proficiency with grammar, semantics, syntax, and teaching the writing process and the ability to articulate their importance will be assessed.
